

femcare™ MVP

Sanitary Disposal System

PRODUCT INFORMATION

 **Safe & responsible.** The Femcare™ MVP range of feminine hygiene waste disposal units means that sanitary waste is disposed of safely and responsibly.

 **Invizi-Touch®** antimicrobial protection is moulded into each Femcare™ MVP unit, providing a durable lifelong protection against harmful bacteria build-up on the product surface, ensuring maximum hygiene for both users & servicing staff.

 **Innovative** revolving modesty flap ensuring waste is completely hidden.

 **Easy cleaning.** Removable chute (black) and quick removal lid for easy cleaning.

 **Liner available.** Femcare™ antimicrobial liners are available for use in conjunction with the Femcare™ MVP disposal systems.

The Eve Appeal. Vectair Systems has teamed up with 'The Eve Appeal' gynaecological cancer research charity to raise awareness through our Femcare™ MVP range of feminine hygiene units.

50p from every unit sold is donated by Vectair to The Eve Appeal Gynaecological charity to raise awareness of womens cancer in washrooms.

Antimicrobial Scented Liners

Femcare™ antimicrobial scented liners are also available to use in conjunction with the Femcare™ MVP disposal system & other similar units; the first feminine hygiene waste liner to incorporate silver ion protection and odour eliminating technology.

Cost effective - removes requirement to buy a plastic liner and separate secondary additive product.

Odour eliminating technology inside the liner ensures bad smells are eradicated while also providing a pleasant fragrance.

Labour and time saving - eliminates on site labour cost and valuable time to manually add an odour reducing technology.

Heavy duty liner, made from strong LDPE – reduces risk of splits or breakages.
